

The Strapmaster

An Ideal, Portable, One-Man Tool Shop

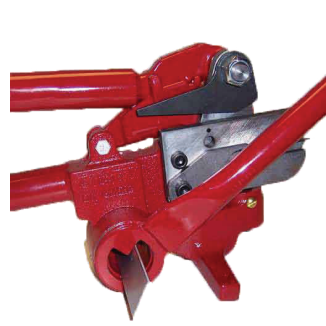

The strapmaster is a manually operated tool that will provide a variety of on site services. This machine will shear, bend, twist and cut pre-cut steel and stainless strips to fit your application. Making your own anchors have never been this easy. Stainless or Steel strapping can be purchased directly from Krando Metal Products for each application. Supplying 48" lengths or custom lengths per your request. Give us a call for more information!
